

RIVERVIEW LANDS TREE INVENTORY

December 2019

Tree Database Prepared by: Dr. Julian Dunster, Professional Arborist
 Tree Survey Prepared by: Kerr Wood Leidal Associated Ltd.
 Document Prepared by: PWL Partnership, Landscape Architects

HOW TO USE THIS SURVEY

BC Housing has produced a hard copy of the 'Riverview Tree Survey' for easy printing and reference for interested members of the public.

Due its large size, the Riverview Tree Survey has been mapped in Area quadrants. A close-up map of each Area is attached and can cross-reference the enclosed Riverview Tree Inventory Table (organized by tree number). Historically, over 1,800 'heritage trees' at Riverview have been surveyed and provided a Tree ID number for tracking. The enclosed Riverview Tree Inventory Table organizes the site's trees by Tree ID number.

ONLINE SURVEY

An interactive Riverview Tree Survey is available on BC Housing's Renewing Riverview project website here:
<https://www.renewingriverview.com/about-riverview/environment>

VISITING THE RIVERVIEW LANDS

BC Housing is committed to protecting the tree collection at Riverview. BC Housing works under the advisement from Dr. Julian Dunster, the lead arborist for the Riverview Lands, to ensure the long term health of the trees and in accordance with the Riverview Tree & Plant Protection Specification.

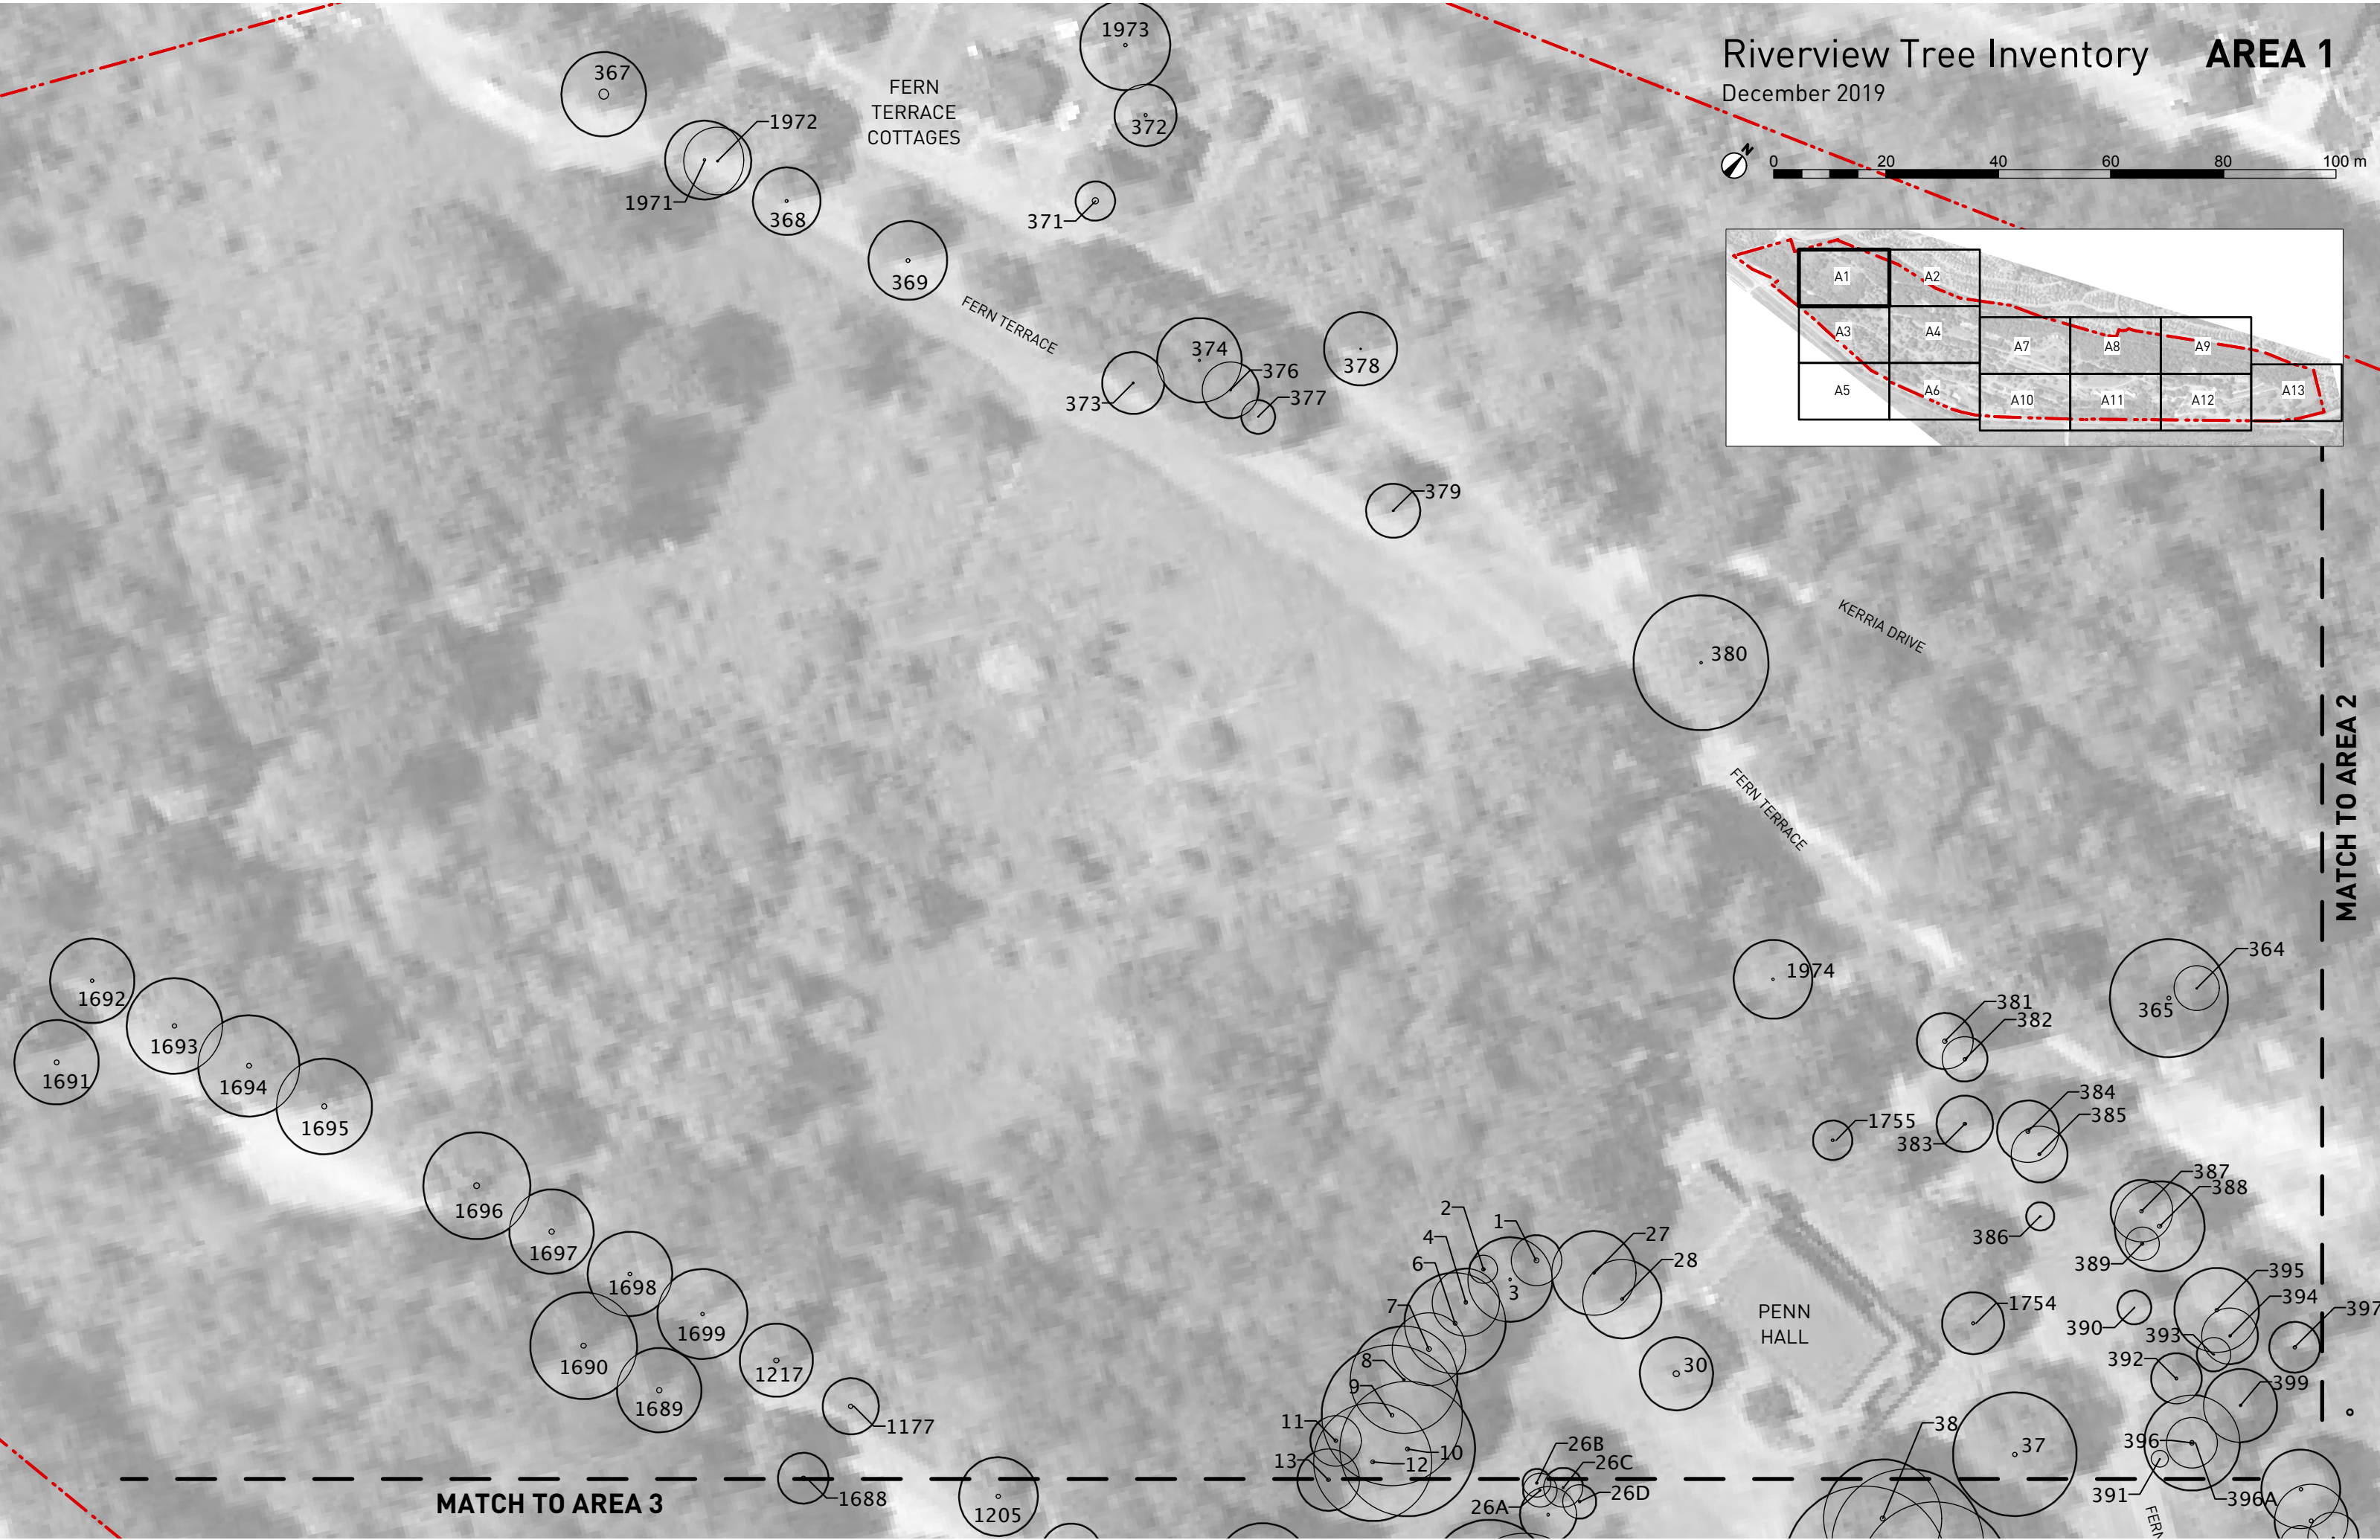

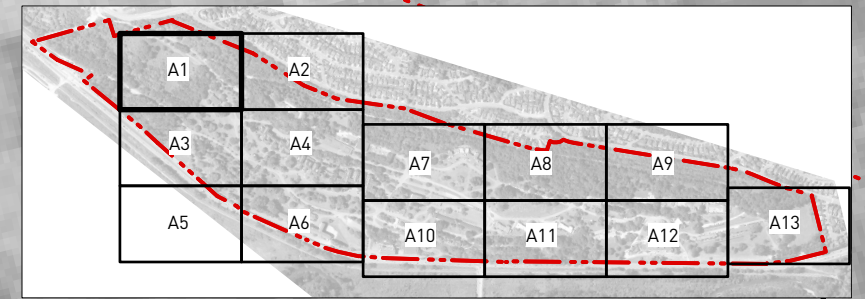

BC Housing invites the public to visit the Riverview Lands and appreciate the site's unique landscape. Visitors to the Riverview Lands are asked to respect the site's many users, its residents, landscape and buildings by following the [Riverview Lands Rules & Regulations](https://www.renewingriverview.com/visitor-info) (<https://www.renewingriverview.com/visitor-info>).

NOTE

Baseline survey information accurate as of July 3, 2018. Natural tree life cycles will change survey information over time. BC Housing reserves the right to determine frequency and issuance of updates.
